

Program Information Report

Manufacturing & Automotive

Advanced Manufacturing (CNC) - Programming and Setup Technician (CTMTPS) Certificate

Program Effective Term: Fall 2022

In this program, students will learn to write, read, and edit programs for CNC machine tools. They will understand core canned cycles for milling and turning operations on CNC machine tools and have the skills to do 2D and 3D modeling and posting of CNC code using CAD/CAM software. Students will obtain a broader knowledge of equipment, geometric dimensioning and tolerancing skills to succeed in the manufacturing environment. Students completing this certificate will be able to create, edit, and debug code for local manufacturing companies.

Program Admission Requirements:

Completion of Advanced Manufacturing (CNC) - Operation Technician certificate. Academic Math Level 4 is required for NCT 221.

Major/Area Requirements		(19 credits)
ELE 111	Electrical Fundamentals	4
MEC 201	Mechanisms	2
NCT 123	2D CAD CAM CNC Programming for Mills and Lathes	2
NCT 201	Geometric Dimensioning and Tolerancing (GD&T)	2
NCT 221	Advanced Manual Programming and NC Tool Operation	4
NCT 244	Advanced Manufacturing Capstone (CNC)	3
WAF 103	Introduction to Gas Tungsten Arc Welding	2

Minimum Credits Required for the Program:

19

WASHTENAW COMMUNITY COLLEGE

PROGRAM CHANGE FORM

Program Code: CTMTP	Current Program Name: Machine Tool Programming	Effective Term: Fall 2022
Division Code: ATP	Department: Advanced Manufacturing	

Directions:

1. Attach the current program listing from the WCC catalog or website and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using CurricUNET, but should be submitted at the same time as the program change form.
4. If changes affect the program assessment plan or if program outcomes are updated, please submit a [Program Assessment Plan Change](#) form. These changes must be approved separately from the program change form and should be submitted at the same time. Current program assessment plans can be found on the [Curriculum and Assessment Program Information page](#).

Requested Changes:

- Remove course(s): NCT120, NCT 121
- Add course(s): NCT201,244
ELE111,MEC201,WAF103
- Program title (new title is **Advanced Manufacturing (CNC) – Programming and Setup Technician**)

- Program outcomes (may also result from removing or adding a course)*
- Program assessment plan*
- Accreditation information
- Other _____

- Description
- Advisors
- Program admission requirements
- Continuing eligibility requirements

Note: A change to the Award Type requires the submission of a new program proposal form and a separate program inactivation form. Contact the Director of Curriculum & Assessment for more information.

Show all changes on the catalog page you attach.

* Please submit a [Program Assessment Plan Change](#) form.

Rationale for proposed changes:

Creation of embedded certificates into AAS APETEC to allow students to obtain credentials along their AAS path. The removed courses are now in the lower level certificate. This certificate also suits students wishing to expand a basic skill set. Existing outcomes and assessment plan match this certificate change.

Financial/staffing/equipment/space implications:

Maintaining department faculty staffing levels will be required to cover load for the two new courses.

List departments that have been consulted regarding their use of this program.

Machine Tool Programming (CNC) (CTMTP)

Certificate

Program Effective Term: Fall 2016

In this program, students will learn to write, read, and edit programs for CNC machine tools. They will understand core canned cycles for milling and turning operations on CNC machine tools and have the skills to do 2D and 3D modeling and posting of CNC code using CAD/CAM software. Students completing this certificate will be able to create, edit, and debug code for local manufacturing companies.

Program Admission Requirements:

Completion of Machine Tool Setup and Operations certificate or comparable course or work experience. Academic Math Level 4 is required for NCT 121 and NCT 221.

Major/Area Requirements		(Credits)
NCT 120	Introduction to 2D CAD CAM Programming and Applications	2
NCT 121	Manual Programming and NC Tool Operation	4
NCT 123	2D CAD CAM CNC Programming for Mills and Lathes	2
NCT 221	Advanced Manual Programming and NC Tool Operation	4

Minimum Credits Required for the Program: 12

PROGRAM CHANGE OR DISCONTINUATION FORM

Program Code: CTMTP Program Name: Machine Tool Programming (CNC) Effective Term: Fall 2016
 Division Code: ATP Department: INTD Industrial Technology

Directions:
 1. Attach the current program listing from the WCC catalog or Web site and indicate any changes to be made.
 2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
 3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Master Syllabus form, but should be submitted at the same time as the program change form.

Requested Changes:

<input type="checkbox"/> Review	<input type="checkbox"/> Program admission requirements
<input checked="" type="checkbox"/> Remove course(s): <u>NCT 249</u>	<input type="checkbox"/> Continuing eligibility requirements
<input checked="" type="checkbox"/> Add course(s): <u>NCT 120 and NCT 123</u>	<input type="checkbox"/> Program outcomes
<input type="checkbox"/> Program title (title was _____)	<input type="checkbox"/> Accreditation information
<input type="checkbox"/> Description	<input type="checkbox"/> Discontinuation (attach program discontinuation plan that includes transition of students and timetable for phasing out courses)
<input type="checkbox"/> Type of award	<input type="checkbox"/> Other _____
<input type="checkbox"/> Advisors	
<input type="checkbox"/> Articulation information	

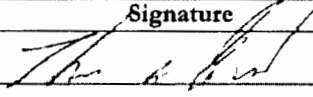

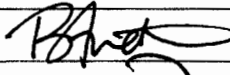

Show all changes on the attached page from the catalog.

Rationale for proposed changes or discontinuation:
 Splitting NCT 249 into two courses, NCT 120 and NCT 123 to provide an opportunity for Welding students to take NCT 120.

Financial/staffing/equipment/space implications:
 Increase lecture hours by 15 and increase lab hours by 15

List departments that have been consulted regarding their use of this program.

School of Advanced Manufacturing Systems

Whether your interest is in manufacturing or automation, the programs in the School of Advanced Manufacturing Systems will fit your needs. Maintain and troubleshoot the machines that make commercial goods by specializing in one or more aspects of the machining industry. Develop entry level or advanced skills in electronics, automation hydraulics or numerical controls.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, advanced certificate, and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, an advanced certificate (if one exists) and General Education requirements.

Machine Tool

Learn about machining operations through the production of parts using WCC's extensive machine tool laboratory.

Assessment plan:

Program outcomes to be assessed	Assessment tool	When assessment will take place	Courses/other populations	Number students to be assessed
1. Code for programming machine tool motion resulting in desired part features.	Capstone Project	Fall 2016	NCT 221	All
2. Troubleshoot, debug and edit programs to enhance productivity or part quality.	Capstone Project	Fall 2016	NCT 221	All
3. Model and post machine tool paths using CAD/CAM Software.	Software Quiz	Fall 2016	NCT 249	All
4. Design and build mechanisms to hold parts,	Capstone Project	Fall 2016	MEC201	All

Scoring and analysis plan:

1. Indicate how the above assessment(s) will be scored and evaluated (e.g. departmentally-developed rubric, external evaluation, other). Attach the rubric.

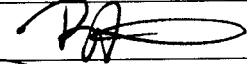

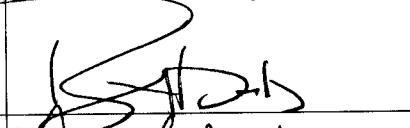

Outcomes 1 – 4: Departmentally- developed rubrics

2. Indicate the standard of success to be used for this assessment.

Outcomes 1 – 4: 75% of the students will score 70% or better.

3. Indicate who will score and analyze the data.
