Assessment plan:

Learning outcomes to be assessed	Assessment tool	When assessment will take place	Describe population to be assessed	Number of students to be assessed
1. Master advanced techniques for trim, exterior finishes, remodeling.	Written and Lab Tests	Fall 2008 and every three years after	All	All
2. Illustrate competency of steps that lead to the creation of a successful construction business and the steps necessary to produce and finish a residential construction project.	Written and Lab Tests	Fall 2008 and every three years after	All	All

Scoring and analysis of assessment:

1. Indicate how the above assessment(s) will be scored and evaluated (e.g. departmentally developed rubric, external evaluation, other). Attach the rubric/scoring guide.

The Advisory Board will follow the Home Builders Association performance guidelines to judge each aspect of the final product. The sample test questions will be on each student's final exam and will be gathered and graded by a faculty member who did not teach the course to ensure blind-scoring.

2. Indicate the standard of success to be used for this assessment

All students will be examined for this assessment. Success will be based upon 80% of students earning 75% or higher on standardized final questions.

3. Indicate who will score and analyze the data (data must be blind-scored).

Faculty, department chair, and advisory board members will blind-score and analyze the data.

4. Explain the process for using assessment data to improve the program.

The assessment results will be shared before the beginning of the Winter 2009 term. Any changes that need to be made based on the data will be implemented for Fall 2009. Students enrolled in Winter and Spring/Summer courses will not be effected by the changes. The assessment will determine if the student learning is up to industry and state standards. If there is a weakness in any field, the courses will be adjusted to address those needs.
